

Rock and Roll Soul

Grand Funk Railroad

We're having a party, yeah, yeah
A new generation along with the old
If you could get with it, just a little, boy
It don't take much try'in
To find out if you got some rock and roll soul, baby
We need everybody in this world,
So if you know what you got, let everybody know
You've got some rock and roll soul

I know it, and it's kinda groovy
It's kinda funky like an old time movie
I can feel it and its really something
It is something when my heart gets pump'in yeah

Tell everybody you know
You've got some rock and roll soul
Tell everybody you know
You've got some rock and roll soul
