Never Knew Love

Oleta Adams

Never, never knew loveSometimes love can be so cold
Spinning 'round and 'round
Nothing left to hold on toOther times love can be untrue
I'll keep this feeling deep inside
'Cause girl, I still want youI never knew love like this before
Don't walk away, don't close your door
I never knew love like this before
Don't walk away, don't close your door, yeahNow I'm here and we're together, baby
You can see it in my eyes
How much I'm missing youI can't keep pretending, the fantasies ending
I need to spend my life with you
And now my lonely days are overWe can't feel this way forever
Through the good times and the bad times
We will be together no matter, no matter what the costI never knew love like this before
Don't walk away, don't close your door
I never knew love like this before
Don't walk away, don't close your doorI never knew love like this before
Don't walk away, don't close your door
I never knew love like this before
Don't walk away, don't close your doorI never knew love like this before
Don't walk away, don't close your door
I never knew love like this before
Don't walk away, don't close your doorI never knew love like this before
Don't walk away, don't close your door
