

# No Has Beens

## Down By Law

Sitting in my room  
Come to take me away  
Me worry? What problems? I've seen them come  
And I've seen them go  
And I feel happy when I don't know I'm so glad, I'm seeing you  
And I know that you will see it through  
'Cause you love your music and I do too Twenty years and you're not the same  
They've all lost their faith  
But I believe in change And I'm so glad, I'm seeing you  
And I know that you will see it through  
'Cause you love your music and I do too Maybe it's silly but here's a thank you song  
From me to you and I'll keep listening  
As long as you stay true  
So here's a thank you song to you
