

Drunken Hearts

Wallpaper.

Member' what you said to me?
We were fading heavily
On the rooftop stumbling
We're our own worst enemies Cause' my drunken heart's like an overflowing cup
I've got too much love
Too much love We got drunken hearts
And don't know how to stop
Cause' we got drunken hearts
And don't know how to stop
Our drunken hearts We go out like every night
Making out and picking fights
And even though I know its bad
You're a good problem to have Cause' my drunken heart's like an overflowing cup
I've got too much love
Too much love We got drunken hearts
And don't know how to stop
Cause' we got drunken hearts
And don't know how to stop
Our drunken hearts
Our drunken hearts yeah My drunken heart's like an overflowing cup
I've got too much love and then I spill it
My drunken heart's like an overflowing cup
I've got too much love and then I spill it
Our drunken hearts
They're like overflowing cups
We've got too much love
Yeah too much love We got drunken hearts
And don't know how to stop
Cause' we got drunken hearts
And don't know how to stop
Our drunken hearts Our drunken hearts
They're like overflowing cups
We've got too much love
Yeah too much love Our drunken hearts
They're like overflowing cups
We've got too much love
Yeah too much love Our drunken hearts
They're like overflowing cups
We've got too much love

Yeah too much love
