

# Make Some Noise

## Edo G & Masta Ace

Yeah, you're so convinced of how it's supposed to be  
I know that you're confused, don't take it out on me  
We're not afraid to try, we're not afraid to dream  
But when it all goes wrong we're not afraid to scream  
    'Cause the future now is ours to make  
        Oh, oh, shout it out  
        Get ready 'cause we like it loud  
    'Cause we were born to make some noise  
        Don't tell me we should turn it down  
    'Cause we were born to make some noise  
        Make some noise, make some noise  
We're not the enemy you might be surprised  
Don't need hypocrisy to open up our eyes  
We don't need your rules, don't need a uniform  
This is who we are, we won't be ignored  
    'Cause the future now is all that remains  
        Oh, oh shout it out  
        Get ready 'cause we like loud  
    'Cause we were born to make some noise  
        Don't tell me we should turn it down  
    'Cause we were born to make some noise  
        Nobody's going to shut it down, yeah  
    'Cause we were born to make some noise  
        We could turn this whole thing around  
Come on all you girls and boys make some noise  
        Make some noise, make some noise  
Just for once, just for once can you think for yourself?  
Seconds fade away so we don't have anytime to waste  
    Get ready 'cause we like loud  
    'Cause we were born to make some noise  
        Don't tell me we should turn it down  
    'Cause we were born to make some noise  
        Nobody's going to shut it down, yeah  
    'Cause we were born to make some noise  
        We could turn this whole thing around  
Come on all you girls and boys make some noise  
        Get ready 'cause we like loud  
    'Cause we were born to make some noise  
        Don't tell me we should turn it down

?Cause we were born to make some noise  
We could turn this whole thing around  
Come on you girls and boys make some noise
