

# She Saw You

Luther Vandross

Whatcha gonna do?  
Whatcha gonna do?  
Whatcha gonna do?  
Whatcha gonna do? Why did you tell your girlfriend  
You were hanging with the boys  
She called me last night  
And I tried to cover for She asked if I liked the flick  
That we all went out to see, yo, I mean this  
I said, "Oh uh, well, it was nice"  
She said, "Don't you lie to me" You messed up you should've warned me first  
(She saw you)  
I'm sad to tell ya  
You should've told me 'cause you made it worse  
(She saw you)  
Unlucky fella You better take that credit card  
(She saw you)  
To Cartier  
You better hope with all you got  
(She saw you)  
She feels like forgiving you today  
Too bad for you You were out there trying to be a player  
Now she's gone, it's true, you my boy  
But it's hard to feel that sorry for you She saw you  
(It's not right)  
Now this is the end  
(It's not right) Whatcha gonna do?  
Saw you kiss the very girl  
(Who's supposed to be)  
Only your friend She's convinced you took her heart  
And played with it like a toy  
And from what I heard You just might need you a lawyer  
It's too late for feeling bad  
You did not respect the girl, what? You tried to play around  
And got caught with your pants down  
You can't escape from what you've done (She saw you)  
Your time is up  
You're like a deer who's caught up in  
(She saw you)  
The headlights of love You can't be too proud to plead

(She saw you)  
She's gonna make you pay  
Forgiveness is what you need  
(She saw you)  
She's too mad to let you get away  
Looks bad to me You were busy trying to be a player  
Now she's gone, breathe deep  
You can't be doing that creep, creep, creep, creep She saw you  
(It's not right)  
Ooh, now this is the end, it is  
(It's not right)  
It is, yeah Saw you kiss the very girl  
Who's supposed to be  
Only your friend  
It's hard to feel that sorry for you She saw you  
(It's not right)  
Now this is the end  
(It's not right)  
Ooh, ooh Saw you kiss the very girl  
Who's supposed to be  
Only your friend Busted  
Whatcha gonna do?  
Whatcha gonna do?  
Busted Busted, busted, busted  
Busted, busted, busted  
Whatcha gonna do?  
Whatcha gonna do? That's right  
She's too mad to let you get away  
Looks bad to me You were busy trying to be a player  
Now she's gone, breathe deep  
You can't be doing that creep, creep, creep, creep She saw you  
(It's not right)  
Yes, she did  
Now this is the end, didn't see it  
(It's not right)  
Didn't see it coming Saw you kiss the very girl  
(Who's supposed to be)  
Only your friend  
What were you doing? She saw you  
(It's not right)  
Yeah  
Now this is the end, yeah, yeah  
(It's not right) Saw you kiss the very girl  
(Who's supposed to be)  
Only your friend She saw you

(It's not right)  
Now this is the end  
(It's not right)Saw you kiss the very girl  
(Who's supposed to be)  
Only your friendShe saw you  
(It's not right)  
Now this is the end  
(It's not right)
