Like We Ain't Ever

Luke Bryan

Yeah I've iced down a few thousand beers in my day
To put down twice as many
No telling how many bonfires have lit up my face
If it ain't hundreds, it ain't any
I stood on this stage so many times
And watched all my friends have the time of your life
But there's something in this spring time air tonight
Yea we're gonna do it up rightLike we ain't ever
All been together
And tried to make one night last forever
Once it's gone, you can't get it back
So lift 'em up, y'all, where you at
Let's fill up on this feel good
Like we don't know, know better
Like we ain't everThis ain't the first time we've
Partied under these stars
Making a hangover
Well, this time I got a few more songs
In this old guitar
For you to pull your baby closer
You pull your baby closerLike we ain't ever
All been together
And tried to make one night last forever
Once it's gone, you can't get it back
So lift 'em up, y'all, where you at
Let's fill up on this feel good
Like we don't know, know better
Like we ain't everThere's something in this spring time air tonight
But we're gonna do it up right
Let's do it up rightLike we ain't ever
All been together
And tried to make one night last forever
Once it's gone, you can't get it back
So lift 'em up, y'all, where you at
Let's fill up on this feel good
Like we don't know, know better
Like we ain't everLike we ain't everLike we ain't ever
