

# When It All Gets Old

## Blue Cheer

(Ralph Burns Kellogg)  
Let's find a darker night  
Let's find a brighter light  
Let's go away to some place strange  
And bring back a whole new change. Let's find a different kind of sun  
Let's find a different kind of fun  
Let's go away just you and me  
And do it all through the day. (Ah.....) Let's find a different set  
(Ah.....) I know we're gonna make it next. After it all gets old  
And after all the stories are told  
We'll go away to some place strange  
And bring back a whole new change.
