

# Motherzone

## Deathstars

Oh, human doll - you know I am the one  
Now, broken doll... Now all ethic's gone Because I'm the shelter and the knife ,The infernal trap and the lies  
And I'm inside you deep, The greatest tear when you weep  
...The virus in your heart...And this is how my name will shine and shine again  
Above you child...  
Alight and scarred I'll leave you alone in this place Enter this world  
I am the one  
This is home  
I am the Motherzone Enter this world  
I am the one  
Return home  
To the body of the Motherzone Get in line, kids - you know I am the one  
Oh, walk away with me... dead daughter and son Well, I'm the source and the field, The shiny scythe that you  
wield  
And I'll be the drug in your blood, The first wave of that flood  
...The D in Darkness... Come to me now, little child!  
Motherzone, Motherzone, Motherzone  
Come to me, you're the first in line!  
Motherzone, Motherzone, Motherzone Come to me...  
Lick me dry!
