

Suburban Myth (Live at the Apple Store)

Less Than Jake

So let's hit the streets tonight to see where we played our first show and where I got chased by cops And I'll show you where I lost my job so we'll jump the fence at 13th and 10th I told you everybody loses sight of All the how it's been and never was So let's hit the streets tonight And I'll show you where I drank on the job left at the light there's park 16th on the right and hung out In that parking lot and all the people through the years you could've known and that's the place that we called home That place you'll never get a chance to know it makes me wonder what your seeing is almost "home"
