

# Beginning of the End

## Status Quo

Happy days are here again  
Its official, from number ten  
We're movin' in, we're movin out  
All change on the roundabout Looking good, for the press  
Gucci or Prada? Let me guess  
The champion is a wonder horse,  
favourite to make it round the course Is this the beginning of the end  
or the end of the beginning  
the way you got me goin'  
tells me I don't know  
I don't understand any  
song that you are singin'  
the jurys out, we're gonna let you know  
beginning of the end  
or the end of the beginning  
the way you got me goin'  
tells me I don't know  
I just can't believe all the records  
you are spinning  
the jurys out we're gonna let you know Oo-la-la, a song and dance  
push to the front, and take a chance  
looking out for number one  
see the picture in The Sun New improved and feelin' good  
maybe a move to Hollywood  
Party on, all of the time  
Who cares about the mess you leave behind? Is this the beginning of the end  
or the end of the beginning  
the way you got me goin'  
tells me I don't know  
I don't understand any  
song that you are singin'  
the jurys out, we're gonna let you know  
beginning of the end  
or the end of the beginning  
the way you got me goin'  
tells me I don't know  
I just can't believe all the records  
you are spinning  
the jurys out we're gonna let you know From beginning to end

I just don't understand  
Is this the beginning of the end  
or the end of the beginning  
the way you got me goin'  
tells me I don't know  
I don't understand any  
song that you are singin'  
the jury's out, we're gonna let you know  
(beginning of the end)  
We'll let you know  
(beginning of the end)  
We're gonna let you know  
(beginning of the end)
