

# Let's dance

## 5ive

If you want to dance, this is our chance  
If you want to dance, let's take our chance

Jiggy jump to the beat  
Keep bouncin', thirty seconds and counting  
Hot one, this choice is critical  
Situation is difficult  
My calibre won't allow me to rhyme  
On a level where you people can hear me  
See me, guess I know you want to be me  
In the meantime bounce to the beat sing,

Music is my life 'cause my life is music  
The beat of the drum in your heart

Let's dance like you mean it, can't you feel it? don't you know  
Let's dance 'cause you need it, better believe it, here we go  
Let's dance give your all when we're coming together on the floor  
Let's dance you know that you've got what I like

Check it down  
Droppin' verbal bombs on the beat  
Hopin' that you people think this sound is unique  
'Cause I like to party, you like to party  
Come on everybody, gotta get it started  
I got something to get you jumpin'  
When I kick the freaky rhyme I'll  
Get the dance floor thumpin'  
Just step back and take time to check  
When I rock up on the mic  
You people never forget  
Check it out

Music is my life 'cause my life is music  
The beat of the drum in your heart

Let's dance like you mean it, can't you feel it? Don't you know  
Let's dance 'cause you need it, better believe it, here we go  
Let's dance give your all when we're coming together on the floor

Let's dance you know that you've got what I like

Let's dance like you mean it, can't you feel it? Don't you know

Let's dance 'cause you need it, better believe it, here we go

Let's dance give your all when we're coming together on the floor

Let's dance you know that you've got what I like

You know you've got what I like

If you want to dance, this is our chance

If you want to dance, let's take our chance

If you want to dance, this is our chance

If you want to dance, let's take our chance

You know that you've got what I like

You know that you've got what I need

If you want to dance, c'mon

You know that you've got what I like, oh yeah

Music is my life 'cause my life is music

The beat of the drum in your heart

Let's dance like you mean it, can't you feel it? Don't you know

Let's dance 'cause you need it, better believe it, here we go

Let's dance give your all when we're coming together on the floor

Let's dance you know that you've got what I like

Let's dance If you want to dance

Like you mean it, can't you feel it? Don't you know

Let's dance if you want to dance

'Cause you need it, better believe it, here we go

Let's dance ooh, ohh

Give your all when we're coming together on the floor

Let's dance ooh, ohh

You know that you've got what I like

Let's dance If you want to dance

Like you mean it, can't you feel it? Don't you know

Let's dance if you want to dance

'Cause you need it, better believe it, here we go

Let's dance ooh, ohh

Give your all when we're coming together on the floor

Let's dance ooh, ohh

You know that you've got what I like
