

Up All Night

Lionel Richie

So I found me a little thing
Wanna keep me up all night
She told me, ?Don't be so uptight?
She wanna keep me up all night
 Damn, she might kill me
I found me a pretty little thing
 Wanna keep me up all night
She says, she gonna make things all right
 She wanna keep me up all night
 Damn, she might kill me
I'm in Brazil, where the scene is so fire
 Where the girls and trees can get hotter
 Everything that I see, it talks to me
 Can't believe how the girls be walking
I've been here about an hour they keep saying, ?Come talk to me?
 I keep thinking there's one and they say us three
 Standing there getting out of the shower
 Turning around showing me the thing got power
 Started to converse and I sense a problem
 And I'm thinking girl, I can always solve them
 But she didn't want to hear it
She says, she is all mine and I can make him feel it
All along I was thinking it was gonna be her plus two
 Now they're looking like Lionel the joke's on you
 Next thing I'm feeling is her up and down
 While the girls are watching
 So I found me a little thing
 Wanna keep me up all night
She told me, ?Don't be so uptight?
 She wanna keep me up all night
 Damn, she might kill me
 I found me a pretty little thing
 Wanna keep me up all night
She says, she gonna make things all right
 She wanna keep me up all night
 Damn, she might kill me
I thought there ain't a thing I ain't seen
 Until she pulled out a banner for me
 She said, ?Whatever you want?

I know I needed a little vacation
But now I may never go home
So I found me a little thing
Wanna keep me up all night

She told me, ?Don't be so uptight?
She wanna keep me up all night
Damn, she might kill me
I found me a pretty little thing
Wanna keep me up all night
She says, she gonna make things all right
She wanna keep me up all night
Damn, she might kill me
I thought that there ain't a thing I ain't seen
Until she pulled out a banner for me
She said, ?Whatever you want?
I know I needed a little vacation
But now I may never go home
I'm in Brazil, where the scene is so fire
Where the girls and trees can get hotter
Everything that I see, it talks to me
Can't believe how the girls be walking
I've been here about an hour they keep saying, ?Come talk to me?
I keep thinking there's one and they say us three
Standing there getting out of the shower
Turning around showing me the thing got power
So I found me a little thing
Wanna keep me up all night
She told me, ?Don't be so uptight?
She wanna keep me up all night
Damn, she might kill me
I found me a pretty little thing
Wanna keep me up all night
She says, she gonna make things all right
She wanna keep me up all night
Damn, she might kill me
So I found me a little thing
Wanna keep me up all night
She told me, ?Don't be so uptight?
She wanna keep me up all night
Damn, she might kill me
I found me a pretty little thing
Wanna keep me up all night
She says, she gonna make things all right
She wanna keep me up all night

Damn, she might kill me
Damn, she might kill me
