

Everybody Down

Nonpoint

When I drop you, I'm gonna stomp you
Pick you up again and then drop you
Lift my foot again and then stomp you
Then grind
And when I stomp you
That'll be the end of you
That'll be it
That'll be the end of you
Time to jump ship
Cause I'm a psycho and I'm crazy
And If you're too close you're gonna get hitEverybody down
I'm coming around
Everybody down
I need every single person right now on the ground
Everybody down I'm coming around
Everybody down I need every single person right now on the groundNow that I got you
Right where I want you
I'm gonna twist you up and tie you up and knot you
Break you, so that it takes you6 months to recuperate you
Thats the end of you
Thats it
Thats the end of you
Time to jump ship
Cause I'm a psycho and I'm crazy
And If you're too close you're gonna get hitEverybody down
I'm coming around
Everybody down
I need every single person right now on the ground
Everybody down
I'm coming around
Everybody down
I need every single person right now on the ground
