

when we

If Jesus Had Machine Guns

Baby...

Ooh baby...

When we...

I gotta man to love me down all night

I just hate it when we fuss and fight

Sometimes it's hard for us to get along

But I miss him when he's not home

Nobody ever finds the perfect man

But I'm a make the best with what I have

Reminiscing on when we touch, boy we make good love...

When we...

(When we...)

When we...

(Oh when we baby...)

When we...

(When we, when we...)

When we make good love

When we...

(when we...)

When we...

(when we...)

When we...

(ooh when we babe...)

When we make good love...

We been together for three long years

But I don't mind cryin' meany tears

Over something that I can't control

But I love him wit all my soul

Nobody ever made me feel this way

We gonna make it through the good and bad days

I know you'll always choose what's best for us, cause we make good love...

When we...

(When we...)

When we...

(Oh when we baby...)

When we...

(Oh when we baby...)

When we make good love

When we...
(when we...)
When we...
(when, when, when, when, when we...)
When we...
(ooh when we babe...)
When we make good love...
Boy you make me realize
That your that special one in my life
You're my soul mate sent to me
Ain't nobody gonna be good to you as I can be
I will love you faithfully, cause our love was meant to be
Cause we make good love...
