Divine Inspiration

Sean Jones

Ladies and gentlemen, boys and girlies
From upper class America
To minimum wage employees
Wherever you are, wherever youre atFrom Columbus Ohio to your point on the map
Its that kid John Reuben, mic checkin one, twon
MCs get the boot when they claim to be the shoe in
Nothing newEverybody wanna be a superstar MC, As for me
I find better things in which to place my energy
Diverse family, we up and at em full fashion
Been locked up in the lab mixin' up this contraptionSmackin' the mic with verbs and nouns of life
I utilize my time right
To hold it down and keep it tight
And then decipher that I step throughYeshua equals life so I dont separate the two
True peace 'n joy
More love to the connector
Illuminate your town as we hit your sectorEverywhere we rock, everywhere we go
Every type of thought, every type of show
We got divine inspiration
We got divine inspirationWell, let me come into the track, yes, y'all
Bring it on back, yes, y'all
One time for the mental piece release
Mos def John Reuben will decreaseChrist increased inspired lyrics hit your soul direct blow
How we communicate, graf DJ and break
Take a minute, now listen and dissect the intuition
More than ear candy but yo, I dwell in submissionTo Heavenly powers, hours on end I spend
Lookin' for creative combinations to blend
Now thats a good combination
Thats a good combinationEverywhere we rock, everywhere we go
Every type of thought, every type of show
We got divine inspiration
We got divine inspirationIn the place to be bringin' it out like
Like dots, I connect my rhymes to the spot
Warp speed like Im trekky, to bang heads of block
To rock, to petrify, combust with mad rush
More cool than that J to bring that cold crushTranscend, runnin' through this whole scheme
Seen with raps, stay fresh, more ultra to the V
Im clutching microphones and roamin' thru them zones
And melodies I release serk ambassadors and vocal tonesShooting missiles from the lab, I contract, bust verbal raps

Ripping, torn thru, and spilling into laps
Douse lyricals with divine divinity
To rise above the normal mediocre plain MCLet me introduce 'cause I feel' Im rev'd and heated
In a state of mass destruct MCs like they never existed
Seein' stars, like Im spangle in your banner
Christian manner, b-boy for Christ, roaring like Im JudahEverywhere we rock, everywhere we go
Every type of thought, every type of show
We got divine inspiration
We got divine inspiration
