Believe

Travis Garland

Believe
Believe

Iâ€™m looking at the future
I see it in your face
I donâ€™t where you came from, you came from
But girl, you can tell me on your way

I ainâ€™t no Casanova
And Iâ€™m not spitting you no game
Your heartâ€™s been broken over and over
But Iâ€™ll make you trust in love again

You know way too many of these same old guys
They tell way too many of these same old lies
Girl, I ainâ€™t just anybody, put your faith in me
I will make you believe
Believe

I used to be so lonely
Felt like a man up on the moon
The stars were my directions, directions
Leading me straight here to you

You know way too many of these same old guys
They tell way too many of these same old lies
Girl, I ainâ€™t just anybody, put your faith in me
I will make you believe
Believe

Iâ€™m gonna make believe
Iâ€™m gonna make believe
Believe [x2]

Hello heart, let me in
All your cracks, Iâ€™m gonna mend
Hello heart, let me in
Iâ€™m gonna make you try again

You know way too many of these same old guys

They tell way too many of these same old lies
Girl, I ainâ€™t just anybody, put your faith in me
I will make you believe
Believe

Iâ€™m gonna make believe
Iâ€™m gonna make believe
Believe [x4]
