

# God Laughs

## Delta Goodrem

Advisory - the following lyrics contain explicit language:

When you come from a solid foundation  
It freaks you out when the ground starts shaking  
And everything around you is breaking Mom was goin' crazy together to keep it  
Dad's two lives he was keeping it a secret  
When we found out we couldn't believe it Were all walking on quicksand  
When we were busy making our plans, God laughs  
Yes, he does  
Were all walking on quicksand  
When we think that we understand, God laughs I've been a sound board tryin' to be neutral  
Born in the middle it's hard to be useful  
It's been hell if I had to be truthful Oh, when people grow apart and people can change  
But it leaves a lotta mess that someone's gotta clean up  
It happened here to the family that I love Were all walking on quicksand  
When we were busy making our plans, God laughs  
Yes, he does  
Were all walking on quicksand  
When we think that we understand, God laughs, God laughs Were all walking on quicksand  
When we were busy making our plans, God laughs, God laughs  
Were all walking on quicksand  
When we think that we understand, God laughs And we're so stupid if we think that we control  
All the dark matter at the center of this black hole  
It's gonna pull us under if we don't let go Were all walking on quicksand  
When we were busy making our plans, God laughs  
Were all walking on quicksand  
Everybody's walking on quicksand  
When we think that we understand, God laughs, God laughs Were all walking on quicksand  
Everybody's walking on  
When we were busy making our plans, God laughs  
He does, he does, he does  
Were all walking on quicksand  
When we think that we understand, God laughs Were all walking on quicksand  
When we were busy making our plans, God laughs

Were all walking on quicksand  
When we think that we understand, God laughs
