

By My Side

No Justice

Written by: Tony Payne / Steve Rice / Brandon Jackson / Colin Boyd
There ought to be somebody by my side

The band is better than the one last night

I've been known to blow money on a stranger's eye

To nurse my wounds and heal my pride
There ought to be somebody in my car

To drive me passed my wrecked up heart

Leave the past that's fading slow

And take her further than she wanna go
Chorus:

There ought to be something right with just being me

Letting go of what is out of my reach

I do what I can, Live my life

There ought to be somebody by my side
There ought to be somebody by my side

This house is empty and it don't feel right

But I cannot hold back the hands of time

It looks like another wasted night
Repeat Chorus
Bridge:

If I could find someone I know we would both reach out for a dream

I found a love I could never leave
Repeat Chorus X2
