Poison

Elise Estrada

(Your love is like a poison)
My heart is racing
My skin is burnin' up
Hands are shakin'
But still I can't get enough
It's rushing through me
Like fire in my veins (My veins)
Sweet veins (Sweet veins)
My body's aching
Aching for your touch
Point of breaking
Mercury is going up
Love how ya do me
Look at the state I'm in (I'm in)
I'm in (I'm in)
I know you're dangerous
Magnetic hazordous
You should be tacted with a warning
Can't you see
It's slowly killing me
Your love is like poison, poison
I should let go
But there's no antidote
Your love is like poison, poison
Gotta get you outta my system
Gotta get you outta my system
Your love is like a poison
Gotta get you outta my system
But I know my heart won't listen
(Your love is like a poison)
My head is spinning
Spinning like vertigo
Double vision
Paralyzing can't let go
Heavy ha-ha-ha
I'm ready to explode (explode)
I know (I know)
I know you're dangerous

Magnetic hazordous
You should be tacted with a warning
Can't you see
It's slowly killing me
Your love is like poison, poison
I should let go
But there's no antidote
Your love is like poison, poison
Gotta get you outta my system
Gotta get you outta my system
Your love is like a poison
Gotta get you outta my system
But I know my heart won't listen
(Your love is like a poison)
I was hooked from the first time
That I tasted tainted lips
I was shook
Yeah I know you're bad
But I'm loving it
Can't you see
It's slowly killing me
Your love is like poison, poison
I should let go
But there's no antidote
Your love is like poison, poison
Can't you see
It's slowly killing me
Your love is like poison, poison
I should let go
But there's no antidote
Your love is like poison, poison
Gotta get you outta my system
Gotta get you outta my system
Your love is like a poison
Gotta get you outta my system
But I know my heart won't listen
Gotta get you outta my system
(Your love is like my poison)
