

# Goodnight

[Lucy Kaplansky](#)

Sleepless nights don't bother me at all  
And if dawn comes I won't worry  
Something deep inside keeps me awake  
I wish that you were here right beside me I recall when I was very young  
And I could not fall asleep  
My father sang me songs to make me tired  
But memories don't come so easily So goodnight, goodnight, wherever you are sleeping  
And I hope that if you dream, you dream of me  
Goodnight, goodnight, wherever you are sleeping  
And I hope that if you dream, you dream of me Now I lie awake and it's no fun  
Tossing and I'm turning  
I'd call you if it weren't so very late  
But telephones won't bring you close to me I recall the nights we stayed up late  
Wide awake but still dreaming  
There was nothing on this earth that could make me tired  
But memories don't come so easily So goodnight, goodnight wherever you are sleeping  
And I hope that if you dream, you dream of me  
Goodnight, goodnight, wherever you are sleeping  
And I hope that if you dream, you dream of me  
And I hope that if you dream, you dream of me
