To Live

John Mellencamp

Sometimes fly a little high, then you better dig yourself
Sometimes get a little lost
Then you know you got to find yourself
Happens to everyone and Lord I don't know whyI want, I want, I need, I need
I want, I want to live to see it all
Laugh, touch it allSometimes we say silly things and act like two little kids
Like the tail wagging, the dog we both get hurt by what was said
That's okay, that's alright with me
I'd rather fight with you than lay down and dieI want, I want, I need, I need
I want, I want to live to see it all
Laugh, touch it allSometimes fly a little high, then you better dig yourself
Sometimes get a little lost
Then you know you better find yourself
Happens to everyone, everyone, Lord I don't know whyI want, I want, I need, I need
I want, I want to live to see it all
Laugh, touch it all, to live, to see it all
