She Drives Me Crazy

WILDBERRIES

She drives me crazy, oh, oh she makes me
Lose control when she comes my way
I won't forget her no, no, can't let her
Capture me and take me away
Whenever you're around, I just can't sit down
'Cause you are the girl that drives me wild
At night I just can't sleep, 'cause I see it in my dreams
And you are the one taking over me
She drives me crazy, oh, oh she makes me
Lose control when she comes my way
I won't forget her, no, no, can't let her
Capture me and take me away
The way you move, the way you do your thing
It lifts me up inside, can't stop it even if I tried
You said you couldn't be mine or next to me at all times
Without you I'm going insane, am I to blame?
She drives me crazy, oh, oh she makes me
Lose control when she comes my way
I won't forget her, no, no, can't let her
Capture me and take me away
Girl, you know you have my heart
And full control over me
You see, I've never felt this way
That's because you drive me crazy
Crazy, girl, you drive me
She drives me crazy, oh, oh she makes me
Lose control when she comes my way
I won't forget her, no, no, can't let her
Capture me and take me away
