

# Gone Too Far

Dan Fogelberg

World spinning out of control  
The odds diminish every died we roll  
    But we are still in the game  
If we should lose theres only us to blameOr have we gone too far  
    Am I just wishing on a dying star  
Oh tell me have we gone too far?Look round you what do you see  
    Six billion people where theres room for three  
    So many mouths go unfed  
Oh Father give us all our daily breadOr have we gone too far  
    Are we just wishing on a dying star  
Oh tell me have we gone too far?Each year we find newer ways  
    To turn this planet into empty space  
    So close now to zero ground  
We've got to find a way to turn it roundOr have we gone too far  
    Are we just living on a dying star  
Oh tell me have we gone too far?Or have we gone too far  
    Are we just wishing on a dying star  
    Oh tell me have we gone too far?
