

Run Away

Weezer

I thought you would always be my friend
Now everything must end
And so the world moves on
And everything must change When I'm looking at the night sky, I can see my soul
I see the little lights flashing at each other up above
Is it us making love in the Milky Way
Long before we threw it all away? Hey you, we're running out of time
And you know it's true
I just wanna run away from here with you
Tonight, tonight Sometimes I wish I was a house at the end of the block
You could smash all my windows with the throw of a rock
And make the hurt go away, come again some other day
There's so much I wanna say about You, we're running out of time
And you know it's true
I just wanna run away from here with you I thought you would always be my friend
But everything must end
And so the world moves on
'Cause everything must change And now you're all alone
You're sitting by the telephone
You wonder why
Everyone will cry
Tonight, tonight
Tonight, tonight
