

# Rock The Hell Out Of You

## Stryper

We're the thundering sons  
We're the undying ones  
With the power of good  
Evil has never won With armies from Heaven  
We have fought with a rage  
It's all in the rhythm  
And the fire coming from the stage We will rock the hell out of you  
We will rock the hell out of you In the streets every day  
We search for anyone  
Who will fight night and day  
Until the battle's won We trust in our sabres  
With the words that we sing  
It's all in the rhythm  
And the power coming from the stage We will rock the hell out of you  
We will rock the hell out of you With armies from Heaven  
We will fight with the rage  
It's all in the rhythm  
And the fire coming from the stage We will rock the hell out of you  
We will rock the hell out of you  
We will rock the hell out of you  
We will rock the hell out of you  
No
