

Only For You

Boyzone

Baby I've been thinking of you Gotta picture in my mind They say I'm falling in love Makes you blind You opened up my eyes No one can ever take your place No one believes in me like you do Only you..can make me feel this way Brought our feelings deep inside You're like food to my soul And I gotta say When I'm feeling down you are there And I feel it too, yes I do And while you're holding me..you say But only for you There's no sacrifice to be loving you, no no Why we still are holding on Baby there's a reason why we met I never knew a love so strong When I look into your eyes Can't live without you by my side Knowing my love will never die No one can ever take your place Yes you are [CHORUS] You're like food to my soul And I gotta say There's no sacrifice to be loving you, no no When I'm feeling down you are there, you say And I feel it too, yes I do But only for you
