Don't Turn Out The Lights

Nkotbsb

Joey: Don't turn off the lights now!
Don't turn off the lights now!

Donnie: N K O T B S B Baby

Jordan: I know we haven't been
Getting along, long at all
I don't think that it's time...

AJ: You and I can give in
Just call, call it off
I don't wanna say goodbye...

Joey: Cause just when I think we're through
Joey and Brian: The memories come flooding back...

Howie: It's like instantly I love you like that...

Brian: I was on fire for you
Brian and Howie: We could get it back again
Brian: If you don't say it's the end, the end...

(Chorus)
So don't turn out the lights now,
Lights now, lights now
Cause in a minute we'll be feeling
Like never before
We'll light up the night now, night now,
Right now
I'll be whatever you need and more
So don't turn out the lights now
Don't turn out the lights now...

Jordan: I'mma give you a minute to clear,
Clear your head
Take the rest of the night, yeah!

Donnie: Take your time...

Nick: You're gonna see that it's

Empty without me in your bed
Baby, you'll change your mind...

Brian: Cause just when I think we're through
The memories come flooding back
And instantly you love me like that/right back?

Joey: I still got this fire for you,
We can get it back again.
If you don't say it's the end, the end...

(Chorus)
So don't turn out the lights now,
Lights now, lights now
Cause in a minute we'll be feeling
Like never before
We'll light up the night now, night now,
Right now
I'll be whatever you need and more
So don't turn out the lights now
Don't turn out the lights now...

Howie: We're down to the wire
Donnie whisper: Let's get high girl
Howie: We gotta let go and take a chance
Donnie: Don't be afraid
Howie: I'll take it higher
Donnie: Let us take you higher...

Nick: Till the end, till the end,
Till the end YEAH! Yeah!!

Donnie: N K O T B S B Baby
Hey!

So don't turn out the lights now,
Lights now, lights now
Cause in a minute we'll be feeling
Like never before
We'll light up the night now, night now,
Right now
I'll be whatever you need and more
So don't turn out the lights now,
Lights now, lights now
Cause in a minute we'll be feeling
Like never before

We'll light up the night now, night now,
Right now
I'll be whatever you need and more
So don't turn out the lights now
So don't turn out the lights now
Don't turn out the lights now
So don't turn out the lights now
Don't turn out the lights now...

Nick: Gonna bring it down...
