

# Outta Here

## EsmÃ©e Denters

Get me outta here  
'Cuz my eyes are burning from these silly tears  
That you brought when you showed me you don't really care  
And you'll never love me  
Someone get me outa this place  
[1.2.3.4]  
Right Now !

Its so amazing how you have so many faces  
And you are not that person i thought that  
I had fell so deep in love with.

You changed up you're Make-Up Your DNA  
I Can't recognize you  
You're a stranger to me  
I feel so betrayed  
What a waster of my heart i made!

Get me outta here  
'Cuz my eyes are burning from these silly tears  
That you brought when you showed me you don't really care  
And you'll never love me  
Someone get me outta this place  
Right Now !

My body's trembling it so damn hard  
To kick this feeling  
Your heart is so cold and now im freezing  
Wish you could feel the pain  
Baby i will arrange it  
Yeah, Yeah, Yeah

You changed up you're Make-Up Your DNA  
I Can't recognize you  
You're a stranger to me  
I felt so betrayed  
What a waster of my heart i made

Get me outa here  
'Cuz my eyes are burning from these silly tears

That you brought when you showed me you don't really care  
And you'll never love me  
Someone get me outa this place

I thought that we were forever  
I guess i Missunderstood  
My fault for thinking you loved me  
Or even thinking you ever could  
Get me outta here, right now  
Get me outta here, right now

Get me outta here  
'Cuz my eyes are burning from these silly tears  
That you brought when you showed me you don't really care.  
And you'll never love me  
Someone get me outa this place (X2)

Right Now, Right Now, Right Now  
Someone get me outa this place  
Right Now, Right Now, Right Now  
Someone Get Me Outta This Place  
Get Me Outta Here (X2)
