

Jupiter

Aoife O'Donovan

Write me a letter
Write it by hand
Tell me everything you want to do before the end
I think we'll make it
Another seventy years
That a the only color we'll see is clear
This future is blacker than a black hole
And I know it's hard to get a read on when's the right time to fold
If you keep on keepin' on and keep your eyes fixed on the road
You'll make it home
Tell me of star stuff
Steady in a cold night sky
Wherever you go I go I
Hit Jupiter and hang a ride
It's a slow ride it's a slow ride
Earth shifting
Temperatures rise
But I will never forget the way your skin tastes in July
It tastes like peaches
It tastes like fine light
When the park stops burning we can settle up our backs
This future is blacker than a black hole
But I know it's hard to get a read on when's
The right time to fall if you keep on keepin' on and
Keep your eyes fixed on the road
You'll make it home
Tell me of star stuff
Steady in the cold night sky
Wherever you go I go I go
I hit Jupiter and hang a ride
It's a slow ride it's a slow ride
If this city should under water go
I will gather up sticks and I will build my love a boat
Float down on the river
Float gently down the stream
Pinch me until I bleed
I want to see the heart dreamin'
But this future is blacker
It's blacker than a black hole

And baby I know it's hard to get a read on when's the right time to fold

When is the right time to fold

Mmm if you keep on keepin on

And keep your eyes fixed on the road

You'll make it home

Tell me of star stuff

Steady in the cold night sky

Wherever you go I go I go

I hit Jupiter and I hang a ride

It's a slow ride it's a slow ride

It's a slow ride it's a slow ride

It's a slow ride it's a slow ride
