

Helium

[Mikey Wax](#)

When the road is long
when you're feeling low
with every breath don't forget how far you've come When it's late at night
when you're all alone
I'll lift you up
I could be your helium I can feel the words
feel the words running through your veins when they said your life
said your life will never be the same Hey there champion
bet you're gonna win this fight
and I'm here for you
through good and bad
I'm right by your side Sometimes you can lose it all over night But everything's gonna be alright When the road
is long
when you're feeling low
with every breath don't forget how far you've come When it's late at night
when you're all alone
I'll lift you up
I could be your helium Won't you free your mind
free your mind like a parachute yeah I know it's hard
I know it's hard when you face the truth hey there friend of mine
You say it feels like you're out of time But I promise you
I promise you we'll make it out alive Sometimes you can lose it all over night But everything's gonna be
alright When the road is long
when you're feeling low
with every breath don't forget how far you've come When it's late at night
when you're all alone
I'll lift you up
I could be your helium When the road is long
When you're feeling low
Yeah don't forget it's darkest before the dawn Just like a bass needs a drum
I'll lift you up
I could be your helium
