

Feel It Risin'

Sabre

Take a ride, c'mon inside
You've been waiting in the cold too long,
Put it away, ain't no other way
To get closer to the one you want.
A little harder, a little softer
Comin' down, down, downâ€¦

Get your feet on the ground
Turn it around
You've got to rise up out of these ashes.
Down, turn it around
You've got to rise up above this disaster.

Feel it risin' inside you
Feel it risin' in spite of you
Just remember, Lord remember
It's a long, long way down.

Look inside, tell no lies
I've been lookin' from the inside out.
Realize you're self â€“hypnotized
Got to carry a little self doubt.
A little harder, a little harder
Comin' down, down, downâ€¦
