

# That's O.K.

## Vonray

One step closer to where I might have started off yesterday  
Life it seems to lead me ound in circles yeah but that okI can worry 'out what Ie been missing

If I could I take it back  
I found out the hard way  
Just exactly what I lack(chorus)  
If I have to decide?That OK  
I tell myself this time?That Ok

That Ok

Watch me go I know this road is gonna take me on a holiday  
Written on your face the look of desperation got to get awayOnce I thought for sure I had the answer  
Then it slipped right through my hands

But you and I both know  
There (plenty of)(always) things that we don understand(chorus)  
That Ok ?That Ok

(bridge)

Wake up people it time to start livin?  
Take these thoughts as a sign of the times  
You can worry about what youe been missing  
Come alive .. You can come aliveOne step closer to where I might have started off yesterday(chorus)I alive I  
alive
