Out To Sea

Lync Wen

No matter where you go
I wanted you to know
That I'll always be
I'll always be with you
And no matter who you meet
Be it a stranger on the street
Know that I'll always be
I'll always be with you
Until they call me out to sea
Well, I'll be waitin' patiently
Until they call me out to sea
And to die, well, I'll be right here with you
And no matter where you are
You will never be too far
I'll always be
I'll always be with you
And though your face can't hide the scars
Of a broken, torn up heart
Know that I'll always be
I'll always be with you
Until they call me out to sea
Well, I'll be waitin' patiently
Until they call me out to sea
And to die, well, I'll be right here with you
I'll be right here with you
I'll be right here with you
And no matter where you go
I wanted you to know
I'll always be
I'll always be with you
Until they call me out to sea
Well, I'll be waitin' patiently
Until they call me out to sea
And to die, well, I'll be right here with you
