

We're Having Much More Fun

X

This room has emptied out
Its time to wash your face
And throw away your food
Leave your sister home and come with us
Its not dark enough not yet
Louder than hell will be well
Love the black night falling
With every unfamiliar scene We're having much more fun
You don't know where we've gone
We're having much more fun
Well crawl through your backyard
And whack your yappin dog We're having much more fun Los angeles treats everyone like a drunk in bed
Washing dirty bums with rain like dishes
On the floor four am we couldnt care less
Where we left home see our shadow
Long and sweaty we shall run next fall We're having much more fun The black and white hotel
Has a stripper club on the bottom floor
"A great place to bring wife
Girlfriend or an out of town guest"
In the hallways upstairs
Everyone hangs out the doors
And the silhouettes act obscene
Across from where we stay We're having much more fun You don't know where we've gone
Well crawl through your backyard
And whack your yappin dog
And whack your yappin dog
And whack your yappin dog We're having much more fun
