

# I Believe (Get over Yourself)

Nico Vega

I was standing, in the corner  
and you opted to come over.  
You said "c'mon girl, join the party.  
You look lonely"  
and then suddenly I replied  
I said, I'm afraid of almost everything I'm not sure what kinds of songs to sing and when I met you, you made  
me think  
that I could be almost anything  
that I could rise above it all endlessly  
and you brought me back to life I believe, I believe, I believe that this is your life and it can move you  
You believe that things are better when left unsaid but you're a fool cause you don't believe in anything good  
it happened to the people it should  
But I believe in you, so get over yourself.  
Well no one, had ever spoken  
to me like that  
and yeah it kinda turned me on  
but I was foolin', actin' cool and  
I was hopeless  
well I'm better off on my own but I'm afraid of almost everything I'm not sure what kinds of songs to sing and  
when I met you, you made me think  
that I could be almost anything  
that I could rise above it all endlessly  
and you brought me back to life I believe, I believe, I believe that this is your life and it can move you  
You believe that things are better when left unsaid but you're a fool cause you don't believe in anything good  
it happened to the people it should  
But I believe in you, so get over yourself.  
(Repeat)  
And I'm so excited,  
and I can't deny it,  
now I won't hide it  
ooooo  
Now I just can't fight it,  
and I can't describe it.  
Oh I'm so excited  
oooooo I believe, I believe, I believe that this is your life and it can move you  
You believe that things are better when left unsaid but you're a fool cause you don't believe in anything good  
it happened to the people it should  
But I believe in you, so get over yourself.  
(Repeat)
