

# Bestfriend

## Musiq Soulchild & Musiq

Bestfriend"(1)

Now a days I don't understand

Why my love doesn't love me like she used to before

(Musiq)

Now lately the sun jus doesn't shine and my paradise is gone

(1)Cause most of the time

Over things that doesn't really matter

Lord knows that I tried

We argue and fight

To give all my love

So what should I do?

(2)

You can't be so demanding

You got to understand it's all about give and take

(Carol)

Things won't always go your way

And think about her feelings

If you just give it time

Then things will work out fine

Learn to make her your best friend(Musiq)

(2)

Complaining and and blaming me for things I'll never do

And I don't know what, what it is that I did that was

I hear what you saying but my girl she's always

So wrong to make her feel I'll ever be untrue to her

(1)

Cause most of the time

We argue and fight

Over things that doesn't really matterLord knows that I tried

To give all my love to her what should I do?(2)

(Carol)

You got to understand it's all about give and take

You can't be so demanding

If you'll just give it time

Things won't always go your way

And think about her feelings

Then things will work out fine

Learn to make her your best friend

(Bridge 1)And just try to take the time to hear her out

See what you need to do is stop catching attitude's  
Stop being so defensive and try to be more attentive to  
Show here you respect what she's talkin 'bout  
Cause you know how us women can be and when we  
Feel threatened we react instinctivly when our emotions have grown to its high we can tend to  
just let it control  
Our lives(Musiq)

Well all right I'll try next time I'll try a little tendernessEven make sure that I give her more complements  
Maybe I could practice on being more patient  
(Bridge 2 2x)  
And compromise for my baby yeah yeah.(together)  
If you want her in your life  
Then you got to be willing to try  
See it's worth the struggle  
Cause in the end she will always  
Be your best friend yeah.
