

# Quietly

## Daniel Renstrom

Quietly explodes your love  
Your insecurity is so soft to me  
    I can't let you bleeding  
    We are falling into us  
    I see you dyin' in my eyes  
    Just let it all go  
    You left  
    So am i  
    We go insane  
    Just let it all go  
    You left  
    So am i  
    You leave on inside  
    Quietly we arrive  
    Your insecurity is so soft to you  
    You can't let me bleeding  
    We are falling into deep  
    I'm dying in your open mouth  
    Just let it all go  
    You left  
    So am i  
    We go insane

Just let it all go  
    You left  
    So am i  
    You leave on  
    You leave on inside  
    So you care  
    Leave them on  
    So you care  
    Leave them on with a shine  
And you can't go on with your life  
    It's a fact we can't deny  
If you have to go, please go quiet  
    Please go quietly  
    Just let it all go  
    You left  
    So am i

We go insane  
Just let it all go  
You left  
So am i  
You leave on  
You leave on inside  
Let it all go
