

Together We Are One (Radio Mix)

Delta Goodrem

Here we are
sharing our lives
we made it through
the good and bad times

and still we stand
with hope in hearts
no matter what
we will play our part

and now we've come so far
one chance to touch a star
go higher
and higher

[chorus]
find your guiding inspiration
in a place where dreams are made
with the lifetimes preparation
its no time to be afraid
put our differences behind us
while we shine like the sun
see what we've all become
together we are one

deep inside
your heart and soul
you worked so hard
to reach your goal
with every step
without regret
you gave it all
till there was nothing left

seek out the strength to win
no thoughts of giving in
go higher
and higher

[chorus]

find your guiding inspiration
in a place where dreams are made
with the lifetimes preperation
its no time to be afraid
put our differences behind us
while we shine like the sun
see what we've all become
together we are one

together
we are one
we are one

[chorus]

find your guiding inspiration
in a place where dreams are made
with a lifetimes preperation
its no time to be afraid
put our differences behind us
while we shine like the sun
see what we've all become
together we are one

together we are one
yeah
put our differences behind us
see what we've all become
together we are one
