

# Down To the River

## Harry Head and the Hunters

One two three four Ride out the storm take on the wave  
Don't run, run, run  
The wind's gonna blow and the ground's gonna shake  
Then it's gone, gone, gone If I ask you tenderly  
Will you follow me down to the river?  
I'll let you down, I'll break your wings  
If you follow me down to the river Try not to mourn shake off the pain  
Don't run, run, run  
The world's gonna spin and the earth's gonna quake  
Then it's done, done, done If I ask you tenderly  
Will you follow me down to the river?  
I'll let you down, I'll break your wings  
If you follow me down to the river (Follow me down to the river)  
Follow me down to the river  
(Follow me down to the river)  
Follow me down to the river  
(Follow me down to the river)  
Follow me down to the river I've got it all, all ahead of me now  
A pattern's gonna form  
And the wind's gonna blow me down Ride out the storm take on the wave  
Don't run, run, run  
The wind's gonna blow and the crowd's gonna break  
Then it's gone, gone, gone If I ask you tenderly  
Will you follow me down to the river?  
I'll let you down, I'll break your wings  
If you follow me down to the river (Follow me down to the river)  
Follow me down to the river  
(Follow me down to the river)  
Follow me down to the river  
(Follow me down to the river)  
Follow me down to the river
