

# If You Were Here with Me

## Orianthi

When I look in your eyes every song that I can't explain  
Like I've been searching my whole life for you babe  
Completely lost in the moments  
Completely lost into time  
There's no better feeling baby  
I can find Cause this ain't no temporary love  
Like the world's the show on TV  
Well this is the real thing baby  
As far as the eye can see If you were here with me  
Laying underneath the stars  
I would do anything  
If you were here with me  
If only we could get that far  
It would mean everything Once in a lifetime does this song of love come around  
The missing piece you keep searching for  
Finally you found  
I really hope that you feel the same way that I do  
Cause baby I would be  
So lost without you Cause this ain't no temporary love  
Like the world's they show on TV  
Well this is the real thing baby  
As far as the eye can see If you were here with me  
Laying underneath the stars  
I would do anything  
If you were here with me  
If only we could get that far  
It would mean everything Cause this ain't no temporary love  
Like the world's they show on TV  
Yeah this is the real thing baby  
As far as the eye can see If you were here with me  
Laying underneath the stars  
I would do anything  
If you were here with me  
If only we could get that far  
It would mean everything
