

Longevity

Yeast

Harmonising
with a girl soft in the face
Just like the old daysGolden sea plane,
dollar, tell skin to tape in
what a bargainturn up in a yellow night
Found oysters on the beach
I'm undressed from the waist.My girl says that all good rain promises
To give life to the seeds, seeds
Live, in the moment,
never count on longevity
PleaseRibbons showing
very plainly on her skin
ok, i want inHeels over head
with her, never mind the taste
my lovely space caseLegs bruised up from the beast
I'm undressed from the waistMy girl says that all good rain promises
To give life to the seeds, seeds
Live, in the moment,
never count on longevity Please.
