

Pirate Jet

Gorillaz

It's all good news now
Because we left the taps running
For a hundred years
So drink into the drink A plastic cup of drink
Drink with a couple
Of people
The plastic creating people Still connected
To the moment it began It's all good news now
Because we left the taps running
For a hundred years
So drink into the drink A plastic cup of drink
Drink with a couple of people
The plastic creating people Still connected
To the moment it began
