

# Zero Butterfly

## Global Citizen

You kamikaze your way  
Through each day  
You'd better take more care  
Of your fragile wings  
I had a nightmare  
Only yesterday  
And you were on  
Auto pilot  
Turbulence, you were going down  
Turbulence, you were going down  
Turbulence, you were going down  
No-one driving, no-one driving  
Zero butterfly  
Learn to love life  
Or your life will be short  
Like your banzai heroes  
Zero butterfly  
Learn to love life  
Your fuel is light  
And you've to find your way home  
Or there'll be.....  
Turbulence and you'll go down  
Turbulence and you'll go down  
Turbulence and you'll go down  
With no life jacket, no kyumeidogi  
What's it like to crash? What's it like to crash?  
What's it like to crash? Zero butterfly  
Tora tora tora, tora tora tora  
Tora tora tora, zero butterfly  
Zero butterfly  
Push the panic button  
You're no suicide girl  
Abort the mission, abort, abort  
Or there'll be.....
