Constant Resurrections

Funeral For A Friend

Closing, folding like a star
Brings you back to see the lights
Bluest water falling down on your skin, on your skinKeep your eyes locked away in some lonely place
Don't stop, don't stop when the music's overCrosses made to bear the weight
You never bothered to explain
Questions swim around your headKeep your eyes locked away in some lonely place
Don't stop, don't stop when the music's over nowClosing, folding like a star
Brings you back to see the lights
Bluest water falling down on your skin, on your skinKeep your eyes locked away in some lonely place
Don't stop, don't stop when the music's over nowIt's over now, it's over now
It's over now, it's over now
