

Shatter

Feeder

Coming around my senses torn
It's no illusion, it's here everyday I bleed
As long as you see it as long as you know
As long as you fake it nobody knows Break down again Im suffering
My heads out of sync and I cant hide the pain Is this the end or is this the start
All that we sever, all that we are
Communication connected apart
Promises given the cross of a heart Break down again Im suffering
My heads out of sync
And I cant find the way I'll defend
I cant find a way out
