When I Dream

Stan Bush

Seems the road goes on and on
And it never ends
And in my heart where I belong
Is there with you
You know I'd be right by you side
If I only could
But on a train called fate I ride, oh ohNow it seems like you're
A million miles away
Soon I'll be comin' home to you
Girl, I wanna but there's
One more song to play
So for now I'm gonna close my eyes
Pretend you're here with me
And I'll be with you
When I dreamSometimes I wonder late at night
When I'm all alone
If I could live another life, oh
How could I leave this all behind
When it's a part of me
That without, I surely would die
Tell me whyNow it seems like you're
A million miles away
Soon I'll be comin' home to you
Girl, I wanna but there's
One more song to play
So for now I'm gonna close my eyes
Pretend you're here with me
And I'll be with you
When I dream
