

# Summer Love

## We the Kings

Last night, I came across a girl  
We met for the first time  
I finally felt alive  
I could not move my bones  
I'm falling into what I know  
I won't ever let go

Can you feel the love in summertime?  
We're in love and it feels right  
Oh, now I, I can't wait for the summer  
Time stops as we move closer  
The sun dropped into the water  
Now I, I'm falling into summer love

Tonight, we are intertwined  
And we are laying side by side  
So don't you try  
To fight those feelings that you hide  
Telling you, "It's okay, girl  
Oh, you will never know"

Can you feel the love in summertime?  
We're in love and it feels right  
Oh, now I, I can't wait for the summer  
Time stops as we move closer  
The sun dropped into the water  
Now I, I'm falling into summer love, love  
Summer love  
We're in love  
Tonight

Can you feel the love in summertime?  
We're in love and it feels right  
Oh, now I, I can't wait for the summer  
Time stops as we move closer  
The sun dropped into the water  
Now I, I'm falling into summer love  
Falling into summer love  
Falling into summer love
