

One Good Friend

Gretchen Wilson

One good friend
I remember when
All we ever said
You'd be lucky if you had
One good friend
Who will let you be hateful
Stop you and knock some sense in your head
Forgive you, let you take back the things that you said (mm)
Lucky me, 'cause when I need to talk
You jump in the car just like family
Seeing my view, seeing me through
Just in a minute, we're laughing again
About how we cry about money and men
And I just wanna say in my life, I had one good friend
Chorus:
One good friend
Like a shadow, like a willow
Standing by me
Strong enough to bend
Never broken, never telling all my secrets
Safe in your heart, as well as in your hand
And I just wanna say in my life, I had one good friend (yeahhh) (2x) So if it means anything in the end
You're my one good friend
Oooooohhhh
