

# Hole

## Vonray

There a hole in the neighborhood where I go  
When I feel misunderstood  
I sit alone and wonder  
What I am who I am  
There a picture down the hall reminds me  
Of when I almost had it all  
When it falls I pick it up  
And put it back  
Chorus  
It not like me to fall apart  
I put my soul out on the table  
You take me in  
And only then I start to climb  
I got a friend I like to see and it seems  
I like her and she likes me  
But it always leads  
To a falling out, a falling out  
There a chapter in a book and every page  
Helps me take a second look  
It only then I find  
The shelter from the pain  
(chorus)  
Bridge  
There a fool in my head  
Telling me I not myself  
Is it wrong for me to believe  
That I could walk out of this dream  
(Chorus)
